CHECK THE WEATHER

The *Parallel outdoor sconce* (right) is perfect for a covered patio that may be subject to moisture condensation around the light; it's damp rated. For exposed areas, where water can splash directly on the light, a wet-rated lamp such as the *King Street sconce* (far right) fits the bill. **Urban Electric Co.**, North Charleston, S.C., 843-723-8140

SPECTATOR SPORTS

It's black and white all over for the new *Paseo umbrella* in bold stripes. The *Mirasol Flamenco* comes in a fashionable cornsilk color. **Santa Barbara Umbrella** (to the trade), Oxnard, 800-919-9464

GAIL OWENS

GO FOR BAROQUE

Custom *baroque frames* planted with a *hanging garden* are available in any color and size. They are made of rot-resistant cedar and come in a variety of styles. **Green Fresh Florals**, Hillcrest, 619-544-0504
